# Welcome to Lake Viren

The area consist of several lakes and the Ronneby river. A total of 700 hectare water with a center depth of approximately 2,5 meters. The lake houses nine different

kinds of fish which can be caught with float fishing or spinnangling.

All fishing requires a fishing license which can be purchased in areas indicated on the next page.

## Pike

Best fishing time is spring and autumn. In the spring in sunny bays over the entire lake in the autumn. The best bait is a wobblers or a medium size spoon.

Minimum size for pike is 40 centimetres.

## Perch

Spin angling with a little spinner through the entire year. Bait with worm or maggot during the summer close to stones and reeded.

## Whitefish

Available in the entire area. Bait with worm, maggot, bread or corn is usually effective. Whitefish finds most likely in reed, waterlillies or other places where they can find shelter from preyfish like Pike or Perch.
